

### **Module 6 – Gabe – Voki script**

Hello again, my friends. Now that we're done with the project, it's time once again to ask ourselves the most important question of all...when will we need this? Seriously. I'm only partly joking this time. The fact is that there's life after high school and we'll need research skills forever. OK, so maybe we won't need to write English papers and cite sources. And we might not call it "research," but that's what we're doing when we explore job options. That's what we're doing when we decide what college to go to. That's even what we're doing when we look at different cell phone plans to get the best deal. Which makes this module extra important. It shows you how to evaluate your skills so you'll be ready for whatever comes next. As the Coast Guard says, *Semper Paratus*. Always ready...Always ready, my friends. Good luck.
