

Module 3—Zack – Voki script

What's up? I'm Zack. Coach is always telling us to be the best and I live by that. You know: Faster, higher, stronger. I know what it takes to be the best on the basketball court. But I'm not so sure what's good information and what's lousy information on the Internet. I do know there's a lot of junk out there but I don't have time to sort through it all. I used to *wish* I knew a faster way. But now I do. And you will too after you finish Module 3. You'll learn the best way to search, what information you find is a slam dunk, and what's just an air ball. Now, I can find the best information faster, which means I spend less time sitting at the computer and more time on the basketball court. See ya'.
